PACKING SPECIFICATIONS
FOR
FENCE TOOL

No. 3760

Individually boxed—weight 1 ¼ lbs.; 8 doz. case, weight 135 lbs., 1.00 cu. ft.

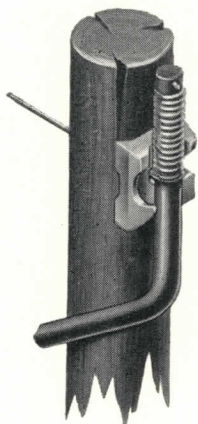

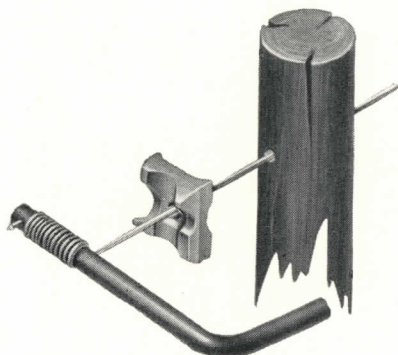

When packed for export the wooden case has a corrugated moisture proof paper lining and is steel strapped.

ETQ Tools Ltd. Dependable Tools Attract Good Customers

SPECIALIZED FOR BETTER SERVICE . . . ETF NO. 3705

Wire Tightener

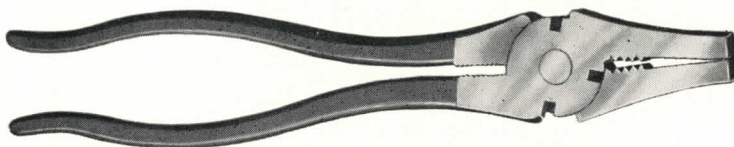

A durable, easy to use, adjustable wire tightener, ideal for wires on vineyards, fences, clotheslines, etc. Plated for maximum weather resistance. Bulk packed to order. Weight each assembly 13 oz.

Simple Directions

1. Drill hole through post large enough for wire.
2. Pass wire through hole in post, base plate and hole in end of horizontal tightening bar.
3. Pull wire tight against post through assembly, cut off surplus wire at tightening bar and secure.
4. Wrap wire around tightening bar by turning clockwise. A short length of pipe makes this easy.
5. When tightened, move tightening bar to vertical position and release.
6. End of tightening bar now bears against post giving solid, non-slip wire adjustment.

FENCE PLIER No. 3710

A low price fence plier, 9" — Button's Pattern. An ideal plier for fence builders, wire mills and repair men. Black finish — Polished jaws. Packed six to a box, weight 5 lbs.
